THE Numb 250

South-Carolina Gazette.

Containing the freſheſt Advices Foreign and Domeſtick.

THURSDAY NOVEMBER 16, 1738.

WARSAW, July 28.

LETTERS from the Frontiers of *Turky* bring, that upon Advice that the Ruſſian Army had paſs'd the *Beg*, and was directing its March towards *Bender*, the Baſhaw of that Place cauſed all neceſſary Diſpoſitions to be made for a vigorous Defence, and for that Purpoſe had cauſed all the Women and old Men to go out of the City, and the greateſt Part of the Wooden Houſes to be pulled down. The ſame Letters add, that the Ottoman Army which encamps along the Dneiſter, and which is ſaid to be very numerous, is commanded by two Seraskiers, who have reſolved to diſpute the Paſſage of that River with the Ruſſians. It's reported, that the Tartars of *Cubay* have reſolved to ſubmit to the Crown of *Ruſſia*, to avoid the total Deſtruction with which their Country is threatned from *Dondouck Ombo*.

Letters of the 15th from Leghorn ſay, an Engliſh Ship arrived there from Minorca, the Maſter of which reports, that Admiral Haddock was entered into Port Mahon with nine Men of War and a Fireſhip, had landed a Regiment of Foot to reinforce the Garriſon, and was to ſtay there till farther Orders; and that the Maſters of divers Ships arrived from Barcelona report, that they are raiſing Seamen on the Coaſts both of Catalonia and Valencia, to be employed on board a Spaniſh Squadron at Cadix, which, they ſay, is to conſiſt of twelve Men of War, whereof one is to carry 84 Pieces of Cannon.

Naples, July 22. Many Hands were employed ſeveral Days at Chiaia in building a great Machine on the Sea, repreſenting a Fortreſs, which when finiſhed was well furniſhed with Bread, Cheeſe, Hams, ſalt Beef and Bacon, beſides five Hens, Geeſe, Capons, Lambs, Calves and Hogs. The Squadron of Gallies of this Kingdom, that of the Gallies of Malta, and the St. Philip Man of War, ranged themſelves in Line of Battle about the Machine with their Flags and Streamers hoiſted. The King and Queen, with all the Court, went the 15th Inſtant in the Afternoon to the Borough of Chiaia, whither a Detachment of Horſe marched to take Poſt before hand. Their Majeſties being ſeated on a magnificent Throne which had been prepared for them, the Feſtival was begun, being what we call a Cocagne. A great Fire was made againſt the Fortreſs from the Gallies, whoſe Guns were charged with Apples and Lemons; Granadoes and Fireworks were likewiſe thrown into it; then 60 Barks advanced from behind the Gallies, in which there were 1200 Men in Shirts and Trowzers, and red Caps. They came out of the Barks, and by the help of the Tables and Steps placed at the Foot of the Machine, ſcaled the Fortreſs and plundered it, while a Mine was ſprung and Fireworks thrown into it. The Proviſions and Animals in that Machine, which would have ſufficed for 10,000 Men, were given to the 1200 who ſcaled it. The common Practice is to abandon the Machines entirely to the People; but as this Cocagne was given upon the Water, where there was a prodigious Concourſe of People in Barks, Boats, &c. it was feared that Accidents might happen on this Occaſion.

Madrid, July 29. The Feſtivals and publick Rejoycing on Occaſion of the Marriage of the King of the Two Sicilies are all over: The Nobility ſpared neither Care nor Expences in order to diſtinguiſh themſelves on this Occaſion. Their Majeſties and all the Royal Family ſet out afterwards from Buen-Retiro for the Caſtle of St. Ildefonſo, where they intend to paſs away Part of the Summer.

Paris, Aug. 8. The Sieur Baudart, Gentleman Machiniſt to King Staniſlaus, ſhews at his Houſe at the Courtille near this City, a Clock of his own making, repreſenting the Fable of Perſeus and Andromeda: The Whole is in Relievo, ſet with curious Stones and fine Pearls, and adorn'd with ſeveral Figures which have Motion; among which there

is a Dragon that claps its Wings and lolls out its Tongue; there is likewise a Chime which plays a Tune every Hour, changes the Tune of itself, and goes eight Days without winding up. The same Machinist proposes to give another Proof of his Art in regard to a Lord of the Court who has been obliged to have his Arm cut off: Our Artist intends to make him one, with which he may hold a Glass, take Snuff, pull off his Hat, and play at Cards; so that this Arm will perform almost all the Functions of a natural one.

From the Paris A la-Main, Aug. 30.

'We hear from Switzerland, that the highest Mountain near Grueres in the Canton of Fribourg lately open'd with a prodigious Noise, vomiting out combustible Matters like Mount Vesuvius; and that the Flames, intermix'd with large Stones, rush'd forth with such Violence that they seem'd to be carried up to the Clouds. All the Country round about that Mountain, which was very fruitful, and well wooded in several Places, is quite ruin'd by this terrible Accident, which has spread a general Consternation among the Inhabitants of the Canton, who never till then had seen any Thing like it in their Country, and are still apprehensive of the Consequence of this new Vulcano.

Hereford, July 25. William Sommers and John Tippin were executed here for House-breaking; they behaved in a very penitent Manner, but made no Confession. At the Tree the Hangman was intoxicated with Liquor, and supposing there were three order'd for Execution, was going to put one of the Ropes about the Parson's Neck as he stood in the Cart, and was with much Difficulty prevented by the Goaler from so doing.

LONDON, *Aug* 24.

They still continue to impress Men, as well in different Ports of the Kingdom, as at London; however, Protections are granted to particular Persons and Ships.

The Men of War in Commission are so near-ly mann'd, that there are not above eight Rendezvous continued.

WHEREAS I have now left off all Business, and am resolved to go with my Family to *Great Britain* next *May*, being only detained here for the recovering of Debts due to me; I do therefore give this early & publick Notice to all those with whom I have had any Dealings, that such as have any Demands on me, may come and receive their Money; and also, that such as are indebted to me, may be punctual in their Payments, for I cannot now admit of any Delay or Excuse, but must put every Debt in Suit.

AS it is scarce practicable to speak with or even write to every one upon whom I have Demands, I therefore can only take this Method of publick Advertizing, by letting such know my Intentions, to prevent further Trouble to myself, and Expence to them, which I hope every one concern'd will take as a Letter to himself, viz.—That all such Debts as were due, and should have been payed last Crop, and are not payed by the first Day of *January* next, will that Day be put in Suit; and, that all such Debts as are now due, or payable the first of *January* next, which are not payed, or secured to my Content by the first Day of *February* next, will that Day be put in Suit.——As I am under a Necessity of settling all my Accounts before I go off, and it is in every Person's Power to comply by a Bond, if not in Payment, before the first of *February*, and as I must sue for all Debts then, in order to prove my Accounts in Court, I hope no Person will take it amiss, if their Debts should then be put in Suit, which will be contrary to the Inclinations of
